FACT

Coapt has experienced reimbursement specialists, let us help you

Coapt is great technology because it is simple to use. Calibration takes 30 seconds. You will use it less often over time, as the AI adapts and learns with you!

Because Coapt is intuitive, it is easier - why wait?

Coapt works in harmony with many devices. Coapt is unique - we are the only company that focuses soley on individual and personalized control between the user and device.

Coapt isn’t new, we’ve been on the market since 2013. Our Gen2 is based on our field experience and input from Clinicians and Coapt users, to help us improve on all aspects of Gen1

3 STEPS TO BEGIN YOUR COMPLETE CONTROL JOURNEY

Here are some questions and things to keep in mind before, during and after your first clinician appointment

1. PRE-APPOINTMENT

- Keep track of what daily tasks you have trouble with. What would help?
- Contact your Physician and let them know you want to get a prescription for a prosthesis and an OT referral.
- Know who is paying for your prosthesis - ask for an explanation of prosthetic coverage and benefits.

2. DURING APPOINTMENT

- Ask for an explanation of the different prosthetic device and options that are available.
- Understand who will help you learn to use your prosthesis once you have it. Will an OT be available?
- Determine what exercises and preparation you should be doing while waiting to receive your prosthesis.

3. POST-APPOINTMENT

- Join the Coapt Community on our website or on social media and get to know other Users.
- Check out the Amputee Coalition for resources on Peer Counselors and the amputee community in your area.
- Work with an OT specialist near you for guidance once you receive your prosthesis.

GET STARTED TODAY. CALL US AT 844.262.7800 TO SCHEDULE AN EVALUATION.
